Why are you hiring an ESIC PF consultant?

You are known how painful it is to have to settle your employees' ESI/EPF accounts monthly.

Best Reasons why you should hire a PF Consultant?

Versatile HR Enterprises Team helps Reduce Cost to Company. As you already know, ESI and EPF are levied on only a part of an employee's salary. A good consultant successfully breaks down an employee's salary into different parts, making sure you pay the least amount possible and saving a lot of money.

Versatile HR Enterprises Team fulfils your monthly Compliances: -

If you already fall under the ESI/PF laws, then you know that you must provide monthly disclosures for each account. You must deposit money in every account, maintain documents, and much more. All this work eats up a lot of time from your work hours and hence decreases productivity. A good consultant fulfils your monthly compliances for you on time. He/she avoids delays as well, thus saving you from any penalties.

Versatile HR Enterprises Team is prepared for inspections: -

This is probably the single most important reason why you need a PF consultant. There are random inspections in companies under the ESI/PF Acts. To handle the inspections, the consultant is always ready and ensures smooth passage for the inspectors and for you. The reason you need a consultant is that any online portal or software that helps you file compliances will not be of any aid here. You need a consultant in the flesh to handle things with inspectors and to make sure all is well.

Versatile HR Enterprises Team Reduces HR Costs too: -

More than half the work of the HR team is to handle ESI, EPF, and payroll processing of the employees. A good PF Consultant handles all of this for a fraction of the cost and saves your HR Team a lot of time. As we re-iterate, there is NO substitute for a good PF consultant.
